Subject: FW: Draft EJ Progress Report and Action Plan

All

I just spoke with Corbin Darling about two EJ activities in front of us (see attachments).

- 1) FY18 Action Plan progress report are needed for several of our activities (see below)
- 2) FY19-20 Action Plan

I committed to Corbin to get back to him by the end of this week on the FY18 progress report. **Please review the following items for your sites and provide an update for FY18 to Fran by Thursday COB and cc Betsy and me. Fran once you get the updates please add to the file on the sharepoint site for Corbin.**

- Butte risk exposure Pb/Ar p26
- BPMD tribal plants p38
- PB strategy p42 (this may be superseded by regional/national efforts and we should consider closing this out for FY18 and eliminating from FY19 plan)
- PB evaluation at SF sites (similar to above?) p44
- CO Smelter p49

We have asked Fran to highlight the activities in the FY19-20 plan that remedial may be involved in so that Betsy and I can review. I think many of these may be holdovers from the FY18 plan. If you have any feedback on those items or new items you recommend including.

Thanks.

Sandy
